

MOCA Virtual Cards

Expand transaction revenue and attract new customers.

DCI's partnership with MOCA provides you with digital accounts that offer functions and features specifically tailored for increasing transaction revenue and attracting new customers.

MOCA's digital accounts are the perfect add-on to DCI's card services, providing your customers with in-demand, innovative features. Best of all, MOCA's digital accounts integrate directly into iCore360.

Hassle and Worry Free

MOCA manages all issuance, processing, compliance, customer service, fraud controls, marketing and reporting.

Meet your customers' card needs no matter where they are with MOCA's virtual prepaid and credit cards.

Cutting-Edge Features

- Virtual, purpose-driven prepaid and credit cards that can be self-issued by customers instantly from the app
- Build credit with robust spending controls
- Buy now, pay later feature provides an easy to offer differentiator in high demand
- Enhanced card controls based on merchants, spend levels, time of day, geography and more
- Unlimited cash-back rewards that promote more transactions and spending
- Rewards are paid out of interchange with no point liability held on books
- Earn revenue and allow customers to instantly send money anywhere with real-time P2P
- World class real-time fraud detection and prevention with two-way alerts and real-time communication
- Instantly provision cards into five digital wallets — Apple, Google, Samsung, Garmin and FitBit Pay
