DCI Executive Wins Innovation Award

- Top honors from a field of more than 200 nominees -

HUTCHINSON, KAN., July 6, 2010 – Robert Ross, Senior Vice President of Network and Technical Services and Chief Security Officer at DCI – a provider of full-service bank technology and processing solutions to the financial industry – has been selected for the 2009 NetApp Innovation Award in the Individual category. Awards were presented during the sixth-annual NetApp Innovation Awards ceremony held at the Hotel Valencia in San Jose, Cal.

“The NetApp Innovation Awards recognize individuals for the significant business impacts they achieved using NetApp® solutions,” said Tom Georgens, president and chief executive officer, NetApp. “This year’s winners have once again raised the bar, and their achievements demonstrate the power of the NetApp and customer partnership.”

Network and Technical Services*

More than 200 nominees were submitted for the 2009 awards in the following five categories: Innovator of the Year, Enterprise Infrastructure, Green, Public Sector, and Individual, with winners selected by a third-party panel of judges.

“This award further confirms DCI’s leading status as an innovator in the core bank technology industry,” said John Jones, DCI President and CEO.

Ross and DCI were honored alongside technology leaders including Microsoft Corporation, Weta Digital, and T-Systems. The award follows others recently received by DCI, including the *InfoWorld* Top 100 and *BankNews* Innovative Solutions awards.

“It’s an honor to be recognized for our technology innovations at DCI among such an impressive field of industry leaders,” said Ross, who was also a featured expert at the recent Storage Networking Industry Association and Kansas Bankers Association technology conferences.

Ross is responsible for the executive management of DCI’s extensive technology infrastructure, handling the data processing of nearly 200 banks nationwide.
