

## NEWS RELEASE

### **File Call Reports Easier with New SmartCall Software**

**HUTCHINSON, KAN., July 22, 2010** – DCI, a provider of full-service bank technology and processing solutions to the financial industry, is pleased to announce our partnership with FedReporter Inc. to bring you SmartCall, a new automated and economical solution to make your call reporting faster and easier than ever.

An immediate benefit of SmartCall is the SmartWindow technology and design that intelligently presents only those call report details that your bank needs to complete. You no longer have to scroll through endless blank forms to find the areas that apply to you. SmartCall also conveniently displays the prior quarterly values while you complete your report so you don't have to manually refer back and forth between different screens or reports.

FedReporter President Phil Templer says: "We are very excited to be working with DCI, and share their commitment to bring DCI bankers the best customer experience with better software, better service and better value."

SmartCall integrates closely with iCore360® using the latest technology and design for an easy transition from manual preparation to automated report generation. By automatically downloading your call report data from iCore360®, SmartCall greatly simplifies the process to save time and reduce errors with more visibility, control and audit trails, which examiners prefer. FedReporter will also handle all necessary setup and conversion from your current solution.

"We are proud to present FedReporter to our clients," says John Jones, DCI president and CEO. "They are renowned & trusted FFIEC experts with the most advanced call reporting software and support available – a perfect fit for DCI and iCore360®."

Other exclusive SmartCall features include bank performance and peer group reports as well as SmartRCR that automatically calculates the complicated RCR (Risk based Capital) schedule.

We encourage you to take advantage of this opportunity to automate cumbersome, detailed and time-consuming call reporting. You can learn more about SmartCall during one of our upcoming webcast presentations.

Webcast Schedule:

- Tuesday, July 27 • 10 a.m. and 1 p.m. CST
- Thursday, July 29 • 10 a.m. and 1 p.m. CST

For more information on SmartCall, or to register for a webcast, contact a DCI Customer Relationship Manager, 620.694.6800.
